MEMORANDUM FOR: [REDACTED] IPS

SUBJECT : DENESELYA, Donald E.
FOIA Appeal (IPS #75-6616)

I am informed that the Office of the Inspector General and the Office of the Legislative Counsel have responded directly to you in connection with the appeal of Donald E. Deneselya (IPS #75-6616). Attached are the comments of the Assistant to the Director on those documents pertaining to his operation. It is Mr. Thuermer's view that the documents should be denied--a view evidently concurred in by [REDACTED] of the Office of General Counsel. For my part, I am not certain whether "propriety and bad public relations" are sufficient grounds to deny a document; however, it would appear that the entire document should be denied under the provisions of the Privacy Act even though it contains no discernible sensitive national security information.
